

Initiative

Hotlinks is a Limited company based in the commercial heart of London's Docklands. We provide high bandwidth Information and Communication Technology (ICT) network services for Homes, Businesses and ISP's.

A simple, "no expense spared" philosophy utilising best of breed technology from the leading manufacturers ensures our services are among the most reliable in the industry.

- Throughout Europe, redbus interhouse is investing in the very best Neutral Colocation Facilities available to ensure that you, our clients receive the best service available.
- Each of our top class facilities offer a comprehensive range of cost-effective and secure internet services to suit your needs.
- This purpose-built data centre, the first credited LINX expansion site, features an exceptionally highly specified infrastructure guaranteed to bring you the desired results on time.
- Harbour Exchange (top right) includes the latest gas-based fire protection systems, specialised heat and smoke sensors, raised flooring, scalable power for future expansion as well as 24x7 technical support 365 days a year and unmatched levels of security.
- The total data floor measures approximately 29,200ft² (2,713m²) – Spread over 3 floors it has shared or dedicated partitioned areas with space ranging from a single interShelf to a dedicated interSuite or interVault. There's no job too large or small for us house.
- Close control downflow air conditioning units guarantee stable temperature and humidity. 2.5 MVA of UPS power keep your machines running cool and smoothly.
- Very Early Smoke Detection Apparatus (VESDA) are installed to lessen fire risk.
- 2 x 1700 kva generator back-up with diesel generator backup for emergency's.

Over the years, we have recognised that keeping up with current trends is vital to remaining successful as an ISP, so you can rest assured we are well in touch with what is happening throughout the ISP industry.

We like to think of ourselves as being 1 step ahead of our competitors so that we put our customers 1 step ahead of theirs.

- Minimum bandwidth purchase is 1mbps per month.
